XAGGREGATOR

A transformative integrated SaaS experience meticulously crafted for financial institutions that unites markets by elevating execution.

XAggregator is a robust SaaS platform designed for financial institutions, uniting markets with unparalleled liquidity aggregation and advanced tools to streamline trading and enhance operational efficiency. It offers multi-asset liquidity management, versatile trading interfaces, comprehensive risk controls, precise execution, intuitive account management, seamless connectivity to trading platforms, and robust APIs.

XAggregator Features

Multi-asset Classes

Multi-asset support for FX, CFDs, Metals, Indexes, Commodities, Equities, NDFs, and Futures.

Cutting-Edge Trading Interface

Boost trading with our advanced interface for professionals and institutions, featuring realtime tracking, customizable layouts, and advanced tools.

Managed Hosting

Achieve prime trading performance in our Equinix-hosted environment, featuring LP cross-connects, ultra-low latency, and a robust IT infrastructure.

Optimized Spreads and Execution

Experience exceptional spreads and precision execution via our multi-tiered bid/offer aggregation, setting new benchmarks in trading confidence.

Comprehensive Liquidity Access

Unite 200+ liquidity sources, including toptier banks, ECNs, and exchanges, to unlock boundless trading possibilities.

Real-time Monitoring and Analysis

XAggregator's real-time monitoring and interactive dashboards make it easy to oversee actions, manage risk, and optimize strategies.

MetaTrader 4/5 Integration

Seamlessly integrate with MetaTrader via MT4 Bridge and MT5 Gateway for superior throughput.

Comprehensive Risk Management

Effectively manage risk using XAggregator's advanced tools, including individual exposure limits, smart risk handling, and external LP interactions.

Liquidity Offering Versatility

Empower liquidity provision with FIX API and bridge interfaces for serving diverse client needs.

Tailored Execution Models

Empower yourself with flexible execution models - a-book, b-book, and tailored options. Customize settings to align with your unique strategies.

Advanced Routing Rules

Tailor routing rules and markup profiles for precision based on client needs, symbol traits, and market conditions.

Seamless Execution Mode Switching

XAggregator enables seamless execution mode transitions with real-time adjustments, ensuring continuous operations for efficient trade flow management.

XAggregator EcoSystem

The XAggregator EcoSystem unites Banks, ECNs, and Liquidity Providers through elevated liquidity aggregation capabilities and streamlined operations.

Why XAggregator

MT4/5 Integration

Our platform offers an easy-to-use interface, allowing traders to focus on trading.

Liquidity Neutral

We maintain liquidity neutrality, ensuring impartial access to liquidity without LP affiliations.

Managed Hosting

Trade from any platform and device. Whether you prefer desktop, web, or mobile, XForce is at your fingertips.

Open Platform

Embrace an open platform, facilitating API connections and seamless thirdparty integration.

Tailored Execution Models

Access multiple liquidity sources with our integrated LP Gateway, saving on bridge or aggregator expenses.

Advanced Charting

Effortlessly analyze market trends with advanced charting tools, including built-in TradingView charts and comprehensive analysis features.
