Fortex LIQUIDITY HUB

A transformative integrated SaaS experience meticulously crafted for financial institutions that unites markets by elevating execution.

Fortex Liquidity Hub is a robust SaaS platform designed for financial institutions, uniting markets with unparalleled liquidity aggregation and advanced tools to streamline trading and enhance operational efficiency. It offers multi-asset liquidity management, versatile trading interfaces, comprehensive risk controls, precise execution, intuitive account management, seamless connectivity to trading platforms, and robust APIs.

Liquidity Hub Features

Multi-asset Classes

Multi-asset support for FX, CFDs, Metals, Indexes, Commodities, Equities, NDFs, and Futures.

Comprehensive Liquidity Access

Unite 200+ liquidity sources, including top-tier banks, ECNs, and exchanges, to unlock boundless trading possibilities.

Liquidity Offering Versatility

Empower liquidity provision with FIX API and bridge interfaces for serving diverse client needs.

Cutting-Edge Trading Interface

Boost trading with our advanced interface for professionals and institutions, featuring real-time tracking, customizable layouts, and advanced tools.

Real-time Monitoring and Analysis

Fortex's liquidity hub real-time monitoring and interactive dashboards make it easy to oversee actions, manage risk, and optimize strategies.

Tailored Execution Models

Empower yourself with flexible execution models - a-book, b-book, and tailored options. Customize settings to align with your unique strategies.

Managed Hosting

Achieve prime trading performance in our Equinix-hosted environment, featuring LP cross-connects, ultra-low latency, and a robust IT infrastructure.

MetaTrader 4/5 Integration

Seamlessly integrate with MetaTrader via MT4 Bridge and MT5 Gateway for superior throughput.

Advanced Routing Rules

Tailor routing rules and markup profiles for precision based on client needs, symbol traits, and market conditions.

Optimized Spreads and Execution

Experience exceptional spreads and precision execution via our multi-tiered bid/offer aggregation, setting new benchmarks in trading confidence.

Comprehensive Risk Management

Effectively manage risk using Liquidity hub advanced tools, including individual exposure limits, smart risk handling, and external LP interactions.

Seamless Execution Mode Switching

Fortex liquidity hub enables seamless execution mode transitions with real-time adjustments, ensuring continuous operations for efficient trade flow management.

Why Fortex Liquidity Hub

MT4/5 Integration

Our platform offers an easy-to-use interface, allowing traders to focus on trading.

Managed Hosting

Trade from any platform and device. Whether you prefer desktop, web, or mobile, XForce is at your fingertips.

Tailored Execution Models

Access multiple liquidity sources with our integrated LP Gateway, saving on bridge or aggregator expenses.

Liquidity Neutral

We maintain liquidity neutrality, ensuring impartial access to liquidity without LP affiliations.

Open Platform

Embrace an open platform, facilitating API connections and seamless third-party integration.

Advanced Charting

Effortlessly analyze market trends with advanced charting tools, including built-in TradingView charts and comprehensive analysis features.
